species, origin, size and process

GLOBAL FOOD SOLUTIONS

FLAVORFUL

Certi-Fresh Cooked Shrimp, Tail On or Tail Off, Shell On or Shell Off or EZ Peel. What makes Certi-Fresh Cooked Shrimp stand out from the competition? Quality that you can see—and taste.

Cooked P&D Shrimp

GREAT TASTE

What makes Certi-Fresh Cooked Shrimp stand out from the competition? Quality that you can see—and taste. First, we travel the globe for the finest raw materials. There are more than 300 different species of shrimp, and we know them all. Our cooked shrimp include Chinese White and Black Tiger Shrimp from Asia. Only premium shrimp carry the Certi-Fresh name.

Farm-raised in environments in which salinity, aeration, water temperature and filtration are all carefully controlled, every shrimp is subjected to stringent quality tests before it becomes a Certi-Fresh shrimp. The shrimp are processed in HACCP and ISO approved plants, where they are kept in a temperature-controlled environment. The farm-raised shrimp are brought in live, where they are logged in, tested microbiologically and organoleptically (taste-tested) before being processed and frozen. Once processed, every bag of Certi-Fresh shrimp is stamped, embossed and stickered with a code that tells us the plant, production date and farm the product came from. Certi-Fresh's Quality Assurance Program ensures that sizing and weights and the potential for broken tails (cooked tail on) are continuously monitored for the ultimate in customer satisfaction.

Best of all, Certi-Fresh Cooked P&D Shrimp are ready to eat—just thaw and serve. Available tail on, tail off, shell on or shell off and EZ Peel, Certi-Fresh offers a whole new world of shrimp possibilities.
