Uncooked P&D Shrimp

species, origin, size and process

GLOBAL FOOD SOLUTIONS

Certifresh

VALUE

Certi-Fresh Uncooked Shrimp, Tail On or Tail Off or EZ Peel.

What makes Certi-Fresh Uncooked Shrimp stand out from the competition? Quality that you can see—and taste.

Uncooked P&D Shrimp

Certi-Fresh Uncooked Shrimp offers you a whole world of shrimp possibilities. There are more than 300 different species of shrimp, and we know them all. Mexican White and Brown Shrimp. Black Tiger and White Shrimp from Asia. Gulf Shrimp from Texas and Louisiana. Only premium shrimp carry the Certi-Fresh name.

Farm-raised or ocean-harvested, every shrimp is subjected to stringent quality tests before it becomes a Certi-Fresh shrimp. The shrimp are processed in HACCP and ISO approved plants, where they are kept in a temperature-controlled environment. The farm-raised shrimp are brought in live, where they are logged in, tested microbiologically and organoleptically (taste-tested) before they are processed and frozen. Our ocean-caught shrimp are immediately headed on board, iced, and then block frozen at the processing plant. Once processed, every bag of Certi-Fresh shrimp is stamped, embossed and stickered with a code that tells us the plant, production date and, if farmed, the farm the product came from. Certi-Fresh's Quality Assurance Program ensures that quality, sizing and weights and the potential for broken tails are continuously monitored for the ultimate in customer satisfaction.

Available peeled and deveined or peeled and undeveined, tail on, tail off, Certi-Fresh offers you a whole new world of shrimp possibilities.

Features

Finest quality shrimp

Unsurpassed processing

Consistent sizing

Individually Quick Frozen

All natural

Farm-raised

Hand-peeled and cleaned

Benefits

Excellent flavor

Perfect product in every bag

Excellent presentation
